

E-FLEET NOTIFICATIONS

e-Fleet Notifications

If you ignore overdue assignments, such as inspections or routine maintenance, the e-Fleet app is quick to remind you of their status via mobile notifications. These notifications will pop up on your device until the task is completed. Should a task go ignored for an extend period of time, you'll be contacted by the Nerd Power Fleet Team via email or call and a formal request to complete the necessary task will be presented and a deadline will be placed.

e-Fleet Notifications are located in the "i" at the top right
